ANSUL Remote Manual Pull Station

Manufacturer: Ansul Inc.

Part no.: 434618

The remote manual pull station is made out of molded red composite material. The red colour make the pull station more readily indentifiable as the manual means for the fire suppression system operation. The pull station is compatible with the Ansul stainless steele wire rope. The molded manual pull station should be mounted at a point of egress and positioned at a height determined by authority having jurisdiction.
